

# FUND MANAGEMENT

Gerald Eve offers clients comprehensive specialist services in fund management covering the full investment spectrum across all industry sectors in the UK. Our expert, industry focused teams work with clients to maximise the value and income of their portfolios through tailored investment strategies actively managed to optimise both direct and indirect property investment value.

## Key facts about our work:

- our services include industry and economic research, strategy development, site identification and acquisitions, asset management and development
- our teams are structured by industry sector for in-depth knowledge of all property markets, e.g. retail, industrial and offices
- we offer comprehensive investment advice both in direct and indirect property
- we have a leading finance, funding and investment research team informing investment decisions and strategies
- our client focused and tailored teams bring together multi-disciplinary experts with a wealth of experience in investment strategies and asset value optimisation strategies
- our client base includes institutional investors, property companies, charities and high-net-worth individuals
